

**NO TO THE MONARCHY
NO TO THE CORONATION
FREE JULIAN ASSANGE**

The Republican Labour Education Forum (RLEF) is calling on working people, trade unionists and socialists to join the protest against the Coronation of Charles Windsor.

**SATURDAY 6 MAY 2023
10am TRAFALGAR SQUARE**

Bring flags and colours of England's long struggle for democracy - Sea Green, Red and Violet - in celebration of the Levellers, Chartists and Suffragettes.

Of course, the Coronation is a shameful waste of £100 million. But His Majesty's Governments are notorious in wasting public money on vanity projects because they can. So spending millions on an entirely unnecessary Coronation is par for the course. The real issue is the absence of democracy, the lack of democratic accountability and the privileges of class, which this event celebrates.

The Commonwealth of England has to replace the institution of monarchy and the constitution that supports it. This is not about replacing a hereditary monarch with an elected 'King', like the Presidents of France, Russia or the United States. The country needs a fully democratic state to replace our broken, corrupt and failing state.
